

Cariboo-Chilcotin School District 27 Strategic Planning: Today and For the Future Community Consultation

YOU ARE INVITED

Staff, parents and guardians, and interested community members are invited to join us for a virtual information and feedback session on our strategic plan in development. We have spent a year gathering input from stakeholders, scanning for issues of equity, and reviewing student achievement results. Below is draft set of **focus areas**. We will talk about each of these and invite your questions and comments. We want to know if there are important themes that don't fit into what we have outlined before we move ahead toward a plan for the next three years of continuous improvement.
